

MTCES receives Governor's Award for Excellence in Youth Science Opportunities

[LIBERTY TOWNSHIP, Ohio ~ September 10, 2010] Mother Teresa Catholic Elementary School has been selected to receive the Governor's Award for Excellence for Youth Science Opportunities, in honor of the school's accomplishments during the 2009-2010 school year. MTCES is one of 115 schools selected statewide for the honor, which was determined by the Ohio Academy of Science. Schools selected for the honor receive a special certificate from the Ohio Department of Education.

"We are pleased to receive this honor and recognition from the Academy," remarked Sister Anne Schulz, MTCES Principal. "The faculty, staff and parents of our school have worked hard to develop and strengthen our curriculum. Our science lab is operational, and with the addition of the DNA analyzer, we hope to further expand and enhance our classes, and after school programs."

The Ohio Academy of Science strives to be the leading organization in Ohio to foster curiosity, discovery, and innovation and to unite all who value education, science, engineering, technology and their applications to benefit society. See the Academy's website at <http://www.ohiosci.org>.

Mother Teresa Elementary School, an independent Catholic school serving families of kindergarten through eighth grade children, is located at 7197 Mother Teresa Lane in Liberty Township.
