Personalization

For any item you want personalized, YOU MUST ADD A SEPARATE LINE ITEM TO YOUR ORDER THAT ADDS THE EXTRA \$10 CHARGE. This can be done by going back to the item menu and adding either the Embroidered Name \$10 or the Heat Press Name \$10.

In the COMMENT BOX during the check out, give specific instructions for each shirt that is personalized. If no line item for personalization is included adding the extra \$10 charge, your item will not be personalized regardless of what you enter in the comment box. Give the name and the shirt color/size that it will be applied to.

Adding names to your garment is available by two different methods. Heat press names are the most common and they are done in white, just below the shoulder blades on the back of a garment. Embroidered names are done on the right sleeve only.

Start by clicking the MTCES Gear button on the left hand side. Thank you for your support.
